

FIRST FLOWER FARM

Weddings

HELLO

I'm Imogen - the owner and founder of Firs Flower Farm. Growing and arranging flowers is my passion, I love nothing more than working with couples to create the perfect arrangements and buckets for your wedding.

I believe that planning for your wedding should be as stress free and fun as possible, that's why we have options to suit a range of needs - you can choose our DIY buckets, our full design service or a combination of the two.

Have a read of this brochure, which includes guide pricing. If you like our work and ethos then please don't hesitate to get in touch.

HOW DOES OUR WEDDING SERVICE WORK?

We have three services available - DIY, Combi and Full Design ~

D.I.Y

If you would like to create your own wedding arrangements then our DIY buckets are perfect! They're each made up of approximately 60 stems including focal flowers, filler flowers and foliage (around a third of each).

To help you decide how many buckets you may need we have a handy stem guide...

Bridal Bouquet: 20-50 stems

Jam Jars: 10-15 stems

Bottles/Bud Vases: 1-5 stems

Large Vase: 20-40 stems

Milk Churn: 50-60 stems

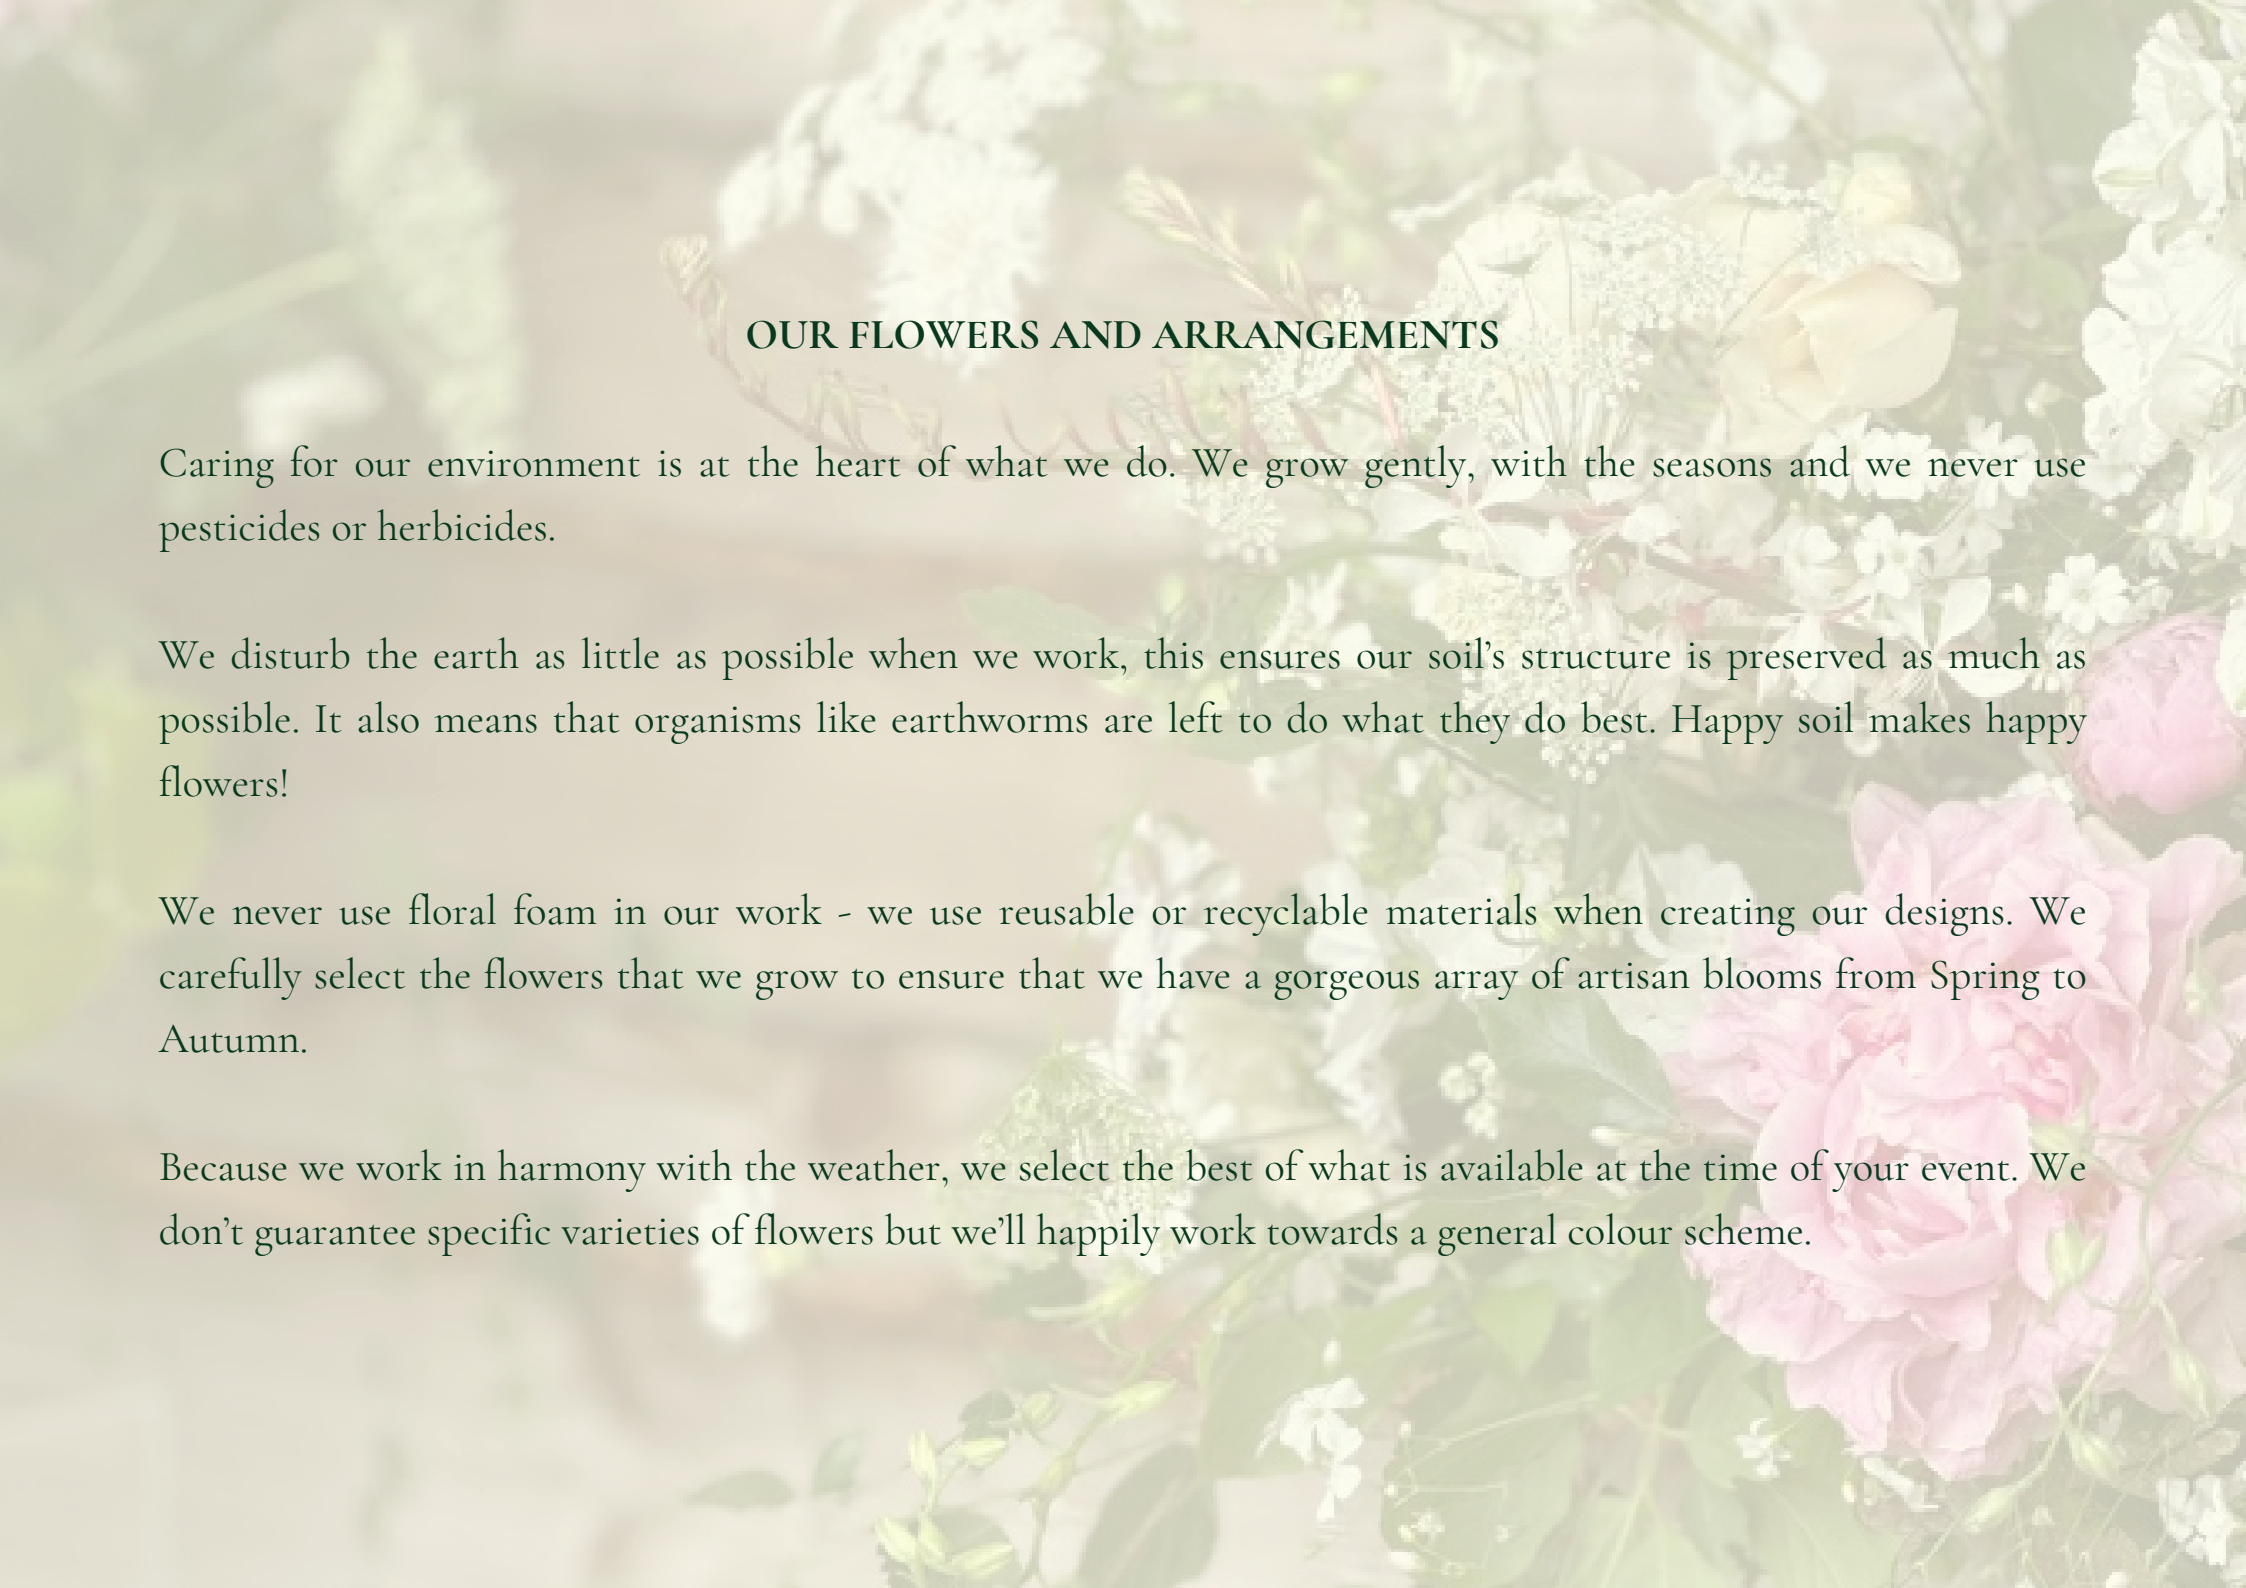

Combi

Our combi service is great if you don't fancy doing all of the arranging yourselves. You can order buckets and any combination of design elements - including bouquets, buttonholes and venue arrangements.

Full Design

If you would like us to do all of your arrangements for you then this is the option for you. We will work with you to design the perfect blooms for your day - we have no limits on this, you can go as small or as large as you like.

If you choose this option then we will usually ask you how much you would like to spend. By knowing your budget upfront, it helps us design beautiful arrangements that work for you.

OUR FLOWERS AND ARRANGEMENTS

Caring for our environment is at the heart of what we do. We grow gently, with the seasons and we never use pesticides or herbicides.

We disturb the earth as little as possible when we work, this ensures our soil's structure is preserved as much as possible. It also means that organisms like earthworms are left to do what they do best. Happy soil makes happy flowers!

We never use floral foam in our work - we use reusable or recyclable materials when creating our designs. We carefully select the flowers that we grow to ensure that we have a gorgeous array of artisan blooms from Spring to Autumn.

Because we work in harmony with the weather, we select the best of what is available at the time of your event. We don't guarantee specific varieties of flowers but we'll happily work towards a general colour scheme.

HOW TO BOOK

If you like the sound of what we offer, then the first step is to fill out our the enquiry form on our website. Let us know your name, your partner's name, the date you're getting married, your venue and the elements you're interested in.

Once we receive your enquiry, we always try to respond within 48 hours, it may be a little longer than this if it is the weekend. When we respond to you, we will let you know if we have your date free.

DIY

If you wish to only order **DIY buckets** then we will send you a draft invoice along with our Terms & Conditions, a booking fee of £50 will be payable to secure the date and the balance will be due 8 weeks before your wedding.

Combi & Full Design

If you opt for the **combi** or **full design service** then we invite you to book a call, Zoom meeting or a visit to the farm (Mon-Fri), this is so that we can chat in more detail about your venue, colour scheme and the type of arrangements you would like.

Once we've had a chat, we will send over a draft invoice along with our Terms and Conditions, a booking fee of £100 is payable to secure the date and the balance will be due 8 weeks before your wedding.

We then get a Pinterest board together for you which will include the type of flowers that we expect to have available, along with design inspiration.

WE LOOK FORWARD TO HEARING FROM YOU
